Mid Fill

BOYD
FLOTATION

Plush micro-fiber cover

Tack-and jump quilted micro-fiber cover provides a plush sleep surface. Thermal bonded fiber quilt fill resists body impressions and provides greater resiliency.

Blue Vinyl Moisture Barrier

The underside of the cover has a vinyl backing that acts as a moisture barrier and prevents condensation.

Tri-Zone SMT™ foam comfort layer

2" of high-resilience anti-microbial foam provides increased support in the center third of the mattress where you need it most.

Fiber filled mattress for adjustable firmness

By varying the amount of water in the 6" waveless mattress you can achieve your desired level of comfort and support.

Patented thermal-bonded polyester fiber system

Two layers of fiber provide stability and contouring support.

4-point tethering system

Tethering all four corners prevents polyester fiber from shifting.

Edge support with moisture barrier

7" profile, preassembled support tray prevents edge sag and makes getting in and out of bed easier. The blue vinyl acts as a moisture barrier and prevents condensation.

15 year warranty

4 year full, 11 year prorated warranty reflects premium quality and workmanship.
